

**FANTASY CHALLENGE
SUPER TWENTY LEAGUES
2024
Final Game**

With the final Gameweek to take place we take a look at all the issues to be decided in the Super Twenty leagues. Are you involved?

Terminology explained: -

Lucky Promotion – When a player has finished outside the promotion places but due to managers dropping out of the game in the higher division they can get promoted after the Lucky Survival (see below) places have been determined.

Lucky Survival – Now if a manager drops out of a Super Twenty Division the manager in 16th place (In a 20-team division) will be re-instated if more than one manager drops out this will continue until the 20th manager then managers in the lower league will receive a lucky promotion (See above).

FC LEAGUE

To look at the FC League is always difficult as unlike in the super20 leagues you don't know how many points for a win but in the FC League, you just are never sure what is a good lead.

We have taken the top twenty managers after gameweek 37.

The +/- column tells you how many points you are behind the manger immediately above you.

The TOP 5 column tells you how many points you are form 6th place or 5th place.

Example: - Cameron Wong is 81 points clear of 6th Place so looking good to finish in the top 5.
 Whilst Dave Hansell in 20th is 38 points off 5th place

15	David Bardon	2454	5	-27
16	Louis Irvine	2449	5	-32
17	Darren Cullen	2449	0	-32
18	Pasquale Egisto	2446	3	-35
19	Steve Shew	2444	2	-37
20	Dave Hansell	2443	1	-38

I think we can say Cameron Wong has a healthy lead at the top and should be fine to hold onto his top 5 spot. Vinay Desai and Martyn Dewick are also looking fairly comfortable for 5th place and a prize-winning position.

As you can see though Dave Hansell in 20th position is just 38 points off of a top 5th place now a lot would have to happen above him for him to make it but it is not impossible for such a point margin to be overturned just that in 20th place you need a lot of managers above you to have average or poor gameweeks.
