## The 10<sup>th</sup> Anniversary Edition

Last season with 140 Managers signing up we had the biggest Fantasy Challenge season ever. This saw the Super Twenty competition grow to its full capacity seeing the birth of two new leagues Pyramid One and Pyramid Two.

We are hoping that this 10<sup>th</sup> anniversary season will see the game grow for the 3<sup>rd</sup> successive season.

With the growth of the game these pre season previews are harder to produce. Last season a lot of effort went into the preview only for it not to be released due to late withdrawals which meant that the predictions for the various leagues had managers in that had left the game.

The hope is to get all the current managers signed up as soon as possible so that this preview will be published.

Whilst I have managed to get this preview done it was because I wanted something to celebrate the 10<sup>th</sup> Anniversary the difficulty experienced in producing the Preview has shown me that it will probably be the last of its kind.

As with every new season in Fantasy History new stars are born Kaska Porczyk winning the overall league with runner-up Sandeep Chohan Claiming the FC Cup and Pyramid Cup these are certainly two names that everyone connected to the game will be keeping an eye out for. Of course there were many other new managers making a mark as well as the old school still showing their worth.

Over the course of these pages we look at all the managers involved in the game, for the first time ever we publish a comprehensive history show the fixtures that each of you will face in the coming season and the FC Expert has predicted how he thinks each league will end up.

I hope that you enjoy this preview, I apologise for any mistakes including spelling and grammatical ones but I have not had a chance to read it through so it is basically a first draft. All that is left for me to say is thanks for signing up for the game and to wish you all the best in the coming season. I now have just one day to sort out my own team.

### FC EXPERT

The question always comes up as to who is the FC Expert. His identity remains a mystery. Only Paul Richardson knows the true identity of the FC Expert.

It is thought the FC Expert is similar to the Stig in the BBC Top Gear programme in that there has been more than one down the years.

Who he is might still be a mystery but one thing we do know is that in 8 Cup Final previews he has predicted the correct winner 6 times.

Enjoy his thoughts on the managers and predictions for this forthcoming season.

Gurney claimed the title in Gameweek 37 beating Adam Pemberton the only other manager to win back to back Premier League titles. Andy Gurney hit top in Gameweek 31 and stayed there till the end. Darrell Jenkins Chased gallantly but could not peg back the 4 point deficit, Jenkins finishing in his best ever position. Paul Richardson only promoted last season claimed a surprise 3<sup>rd</sup> spot with Jeff Aldersea who had pipped Richardson to the Championship title last season finishing 4<sup>th</sup>. Omid Afzalalghom claimed 5<sup>th</sup> place and became the only manager to qualify for the Super Twenty Cup every season. Steve Whitely, Kojo Amofa & Dave Sinclair claimed the other Super Twenty Cup places. At the other end of the table Simon Baker who won the Super Twenty Cup in 2010 was cut adrift early and never looked like surviving. 3 Weeks after Simon's relegation was confirmed 2 other managers Roari Fox & Andrew Burchell were relegated, Fox being relegated in his first season up. Stewart Lunn Could not take it to the final week being relegated in Gameweek 37 he now faces a first season outside the top division. Heartbreak for Joe Higgins on the final day of the season as he drew when a win would have kept him up

ADAM PEMBERTON

Adam Pemberton is the most successful manager in the history of Fantasy Challenge winning 5 major trophies 1 more than anyone else. Adam though has not won anything for two seasons and in 2010 actually suffered the ignominy of relegation a season after claiming his second Premier league title. Amazingly Jean-Pierre Clegg dropping out of the game saved Adam and he was re-instated into the Premier league gaining a Lucky Survival. Last season Adam finished 11<sup>th</sup> respectable mid table position. The performances of the last two seasons and with the game growing and new stars being born many feel that the glory years for Adam are behind him.

PREMIER LEAGUE

ANDREW HILLIARD

Andy Hilliard in his first season claimed promotion from the Conference and also made the Champions League Final losing to fellow Conference manager Andy McLaren. Those managers prompted from the Conference were thought to be the new stars of the game. Andy claimed promotion again in 2008 but then in 2009 when everyone was tipping him as the next big thing in the game he was relegated from the Championship. Luck was to intervene though as Andy received a Lucky Survival and then claimed promotion into the Premier League the following season. Andy had a decent first season in the top league finishing 13<sup>th</sup>, he has not threatened in the cup competitions and this coming season is going to be even tougher in the Premier League.

ANDY GURNEY

When brother Rob claimed the first ever Premier league Title Andy was gaining promotion from League One, you could see the drive in his eyes though in that summer not wanting to be outdone by his brother. Andy claimed as successive promotion the following season then after a fantastic first season in the top flight finishing 5<sup>th</sup> Andy could say to his brother I have own the Premier League as well. Last Season Andy made the Super Twenty Cup Final where he met his brother unfortunately Andy lost the final. Many felt that is was this defeat that spurred him on for his second successive Premier League title. Andy is at the top of the game and his rivalry with his Brother is sure to keep him there.

CHAD PEREIRA

A lot of people will be watching Chad with real interest this season as he take son the Premier League for his first time. Chad has come up from the Conference straight to the Premier. He has had one Lucky Promotion on the way in League Two where he missed promotion by one point. Otherwise he has finished in the top 5 every season. Chad has also made the FC Cup Final 2009 losing to Glen Hogwood. The south African Newcastle fan will be hoping for another successful season. The premier league though is tough and it will be interesting to see how he gets on up against all the big boys on a week to week basis is this new star ready to trade punches with the best Fantasy Challenge has to offer.

PREMIER LEAGUE

DARRELL JENKINS

The self proclaimed Nostroodamous after winning a Prediction league at Rabobank never stops talking about how great he is at Fantasy Football. Darrell is yet to back up these claims with a major trophy but he seems to be getting closer each season. Last season he chased the Premier league title until Gameweek 37. He has two Promotions from the Championship to his name and is looking forward to a third season in the top flight. Jenkins does not have a great cup pedigree the Quarter-Final of the Champions League in 2008 his best performance. He has though qualified for the Super Twenty cup for the second successive season and may well see this as he chance to claim that first major honour.

PREMIER LEAGUE

DAVE SINCLAIR

Two successive promotions from League Two to the Premier and a Champions League final should mean that Dave Sinclair has a higher profile in fantasy challenge but he seems to fly under the radar. Dave has spent 3 seasons in the Premier league always finishing in the top 8 to claim a spot in the Super Twenty Cup. In 2009 & 2010 he also finished in the top 10 of the overall league. His credentials are all there as a top manager. Could 2011-2012 season be his big breakthrough, The FC Expert has picked him to take the Premier league title. Sinclair is sure to have another solid season we shall just have to wait if he is ready to step into the limelight as a major trophy winner.

**JAMES DWINFOUR**

The nephew of 'The Ledge' always has to live under that shadow. Even though James has outperformed his Uncle in the last few seasons he is yet to claim a major trophy. James has a great track in Fantasy Challenge Claiming the Championship title in 2008 and solid performance in the Premier League being runner-up in 2010. He has not had much success in the cup competitions although he made the Semi-Final of the Super Twenty Cup. He has finished in the top 4 of the overall league in 2 of his 5 seasons in the game finishing 3<sup>rd</sup> last season. James keeps on threatening to produce something big in the game but falling short with the new managers coming through this season could be his best chance of winning big.

PREMIER LEAGUE

JEFF ALDERSEA

Jeff had finished 3<sup>rd</sup> in the overall League been to the Champions League Final and an FC Cup Semi-Final before the Super Twenty Leagues started. Jeff was expected to be one of the top managers but failed to qualify for the Premier league and finished 8<sup>th</sup> in the Championship in the first season gaining a lucky promotion. Two seasons later Jeff was relegated. Relegation though seems to have focussed the tall Aussies mind he stormed to the Championship title then in his first season back in the Premier he was challenging for the tile finishing 4<sup>th</sup> in the end. Qualification for the Super Twenty Cup Aldersea has people talking about him again.

JIM BURROWS

Jim an ever present in the Premier league one of only 5 who can say that. Unlike the other 4 though is yet to win a major honour or even get to a cup final. Jim has been to two Super Twenty Cup Semi-Finals and a Champions League Semi-Final. Jim narrowly escaped relegation last season he lost his last match and only survived as Joe Higgins drew on the last day of the season. Jim survived by a single point. This relegation fight though was not tell the full story of Jim's season he had two great Cup runs, Champions League & Super Twenty Cup. If Jims history is anything to go by after a poor season in the Premier League he normally comes back with a strong showing, can Jim finally add the silverware that is the only thing missing from his FC Career so far.

## KOJO AMOFA

Kojo was flying high winning League One in his first season then two seasons later promotion from the Championship was secured and top flight management was secured. For a first season up Kojo had a magnificent season finishing in the top 8 qualifying for the Super Twenty Cup. The question is now if Kojo can cement these great seasons and become with of the stars names of the Premier league. Second season syndrome is now what Kojo has to battle he will point to his two seasons in the Championship finishing half way up and then gaining promotion. Kojo is not lacking in belief in his own ability this season could be the one where he backs up those words.

OLIVER SHANKS

Everyone in the game will be looking at Oliver Shanks first season in the top flight. Shanks has flown under the radar and not made many headlines although he has one of the best records in the game. Shanks a manger for 5 seasons has claimed two major trophies both in 2009 the Champions League being added to the Overall League. Shanks has never finished outside the top 5 in the Super Twenty Leagues and has 4 successive promotions to his name coming from the Conference to the Premier League without any diversions. He is the only manager to have gained the successive promotions many will point to Chad Pereira but one of Chad's promotions was lucky. Can Shanks now mix it week in week out with the big boys?

OMID AFZALALGHOM

The only Manager to have won the Champions League twice a Premier League ever present, the only manager to have qualified for the Super Twenty Cup every season. Omid has also been to Two Super Twenty Cup Finals he has also made the FC Cup Final. Those are his credentials making him one of the most successful managers in the game. Can Omid maintain his amazing record well it is going to be difficult Omid is now resident in Brazil and is looking at the Premier league form far? This was the case last season as well which did not affect Omid in the League although he had a poor season in the cups. He is yet to mount a challenge for the Premier League Title surely it is time for that.

PREMIER LEAGUE

**PATRICK HUTCHINSON**

Patrick Hutchinson was one of the managers that people had their eye on after successive promotions when he joined the league. Many tipping Patrick to go straight through the league. When Patrick was promoted from League Two people were looking at Glen Hogwood and Jere Kerkkänen, Hutchinson though has left them behind with his promotion to the top flight last season. Some will question whether Pat has the temperament for the Premier league as he lost in the final gameweek last season when he needed a win to secure promotion other results went his way to get that promotion. He will not be afforded that luxury in this division.

PREMIER LEAGUE

PAUL RICHARDSON

The founder of the Fantasy Challenge game Paul shocked everyone last season by claiming his highest ever position last season claiming 3<sup>rd</sup> spot. Previously Paul's record was relegation followed by promotion last season's 3<sup>rd</sup> was not just a fantastic finish it was the first time he had ever stayed up. It will be another first next season as Paul has never played in the same league for consecutive seasons. Many will be expecting Paul to struggle this season as he often has a poor season although his last two have been good. Paul as the founder is one of only 3 managers in the game that have played every season he does not have a major trophy to his name two promotions and being a runner-up in the overall League in the first ever season.

PREMIER LEAGUE

ROB GURNEY

The first Premier League Champion Rob Gurney is one of the most successful managers in the history of the Fantasy Challenge. Rob added his second Super Twenty Cup and his fourth major trophy placing him equal second on the all time list of successful managers. Last season though saw the worst finish in the Premier League 10<sup>th</sup> the first time Rob has failed to qualify for the Super Twenty Cup. Seeing his brother Andy claim his second Premier league title is sure to spur Rob on to get back into the title frame next season. Rob of course can probably still claim the bragging rights over his brother as that Super Twenty Cup was claimed by beating Andy in the final.

PREMIER LEAGUE

ROBIN WILSON

Robin Wilson used to complain every season about the FC Experts predictions as relegation from the Premier League was predicted. The FC Expert was finally right in 2010 although many feel that does not tell the full story. Relegation came a season after Wilson had lost the title on the last day of the season. In 2009 with one match to go Robin sat top of the league form Adam Pemberton by just 1 point amazingly the fixture list saw the top two play in the last gameweek. For Wilson it was to be heartbreak as he lost to Adam 37-26. That was the 3<sup>rd</sup> defeat on the trot the last 3 games of the season if one victory had been secured Robin would have been Premier league Champion, now he is back in the top flight can he put that pain behind him.

PREMIER LEAGUE

STEVE SHEW

Shewy as he is affectionately known by his rivals in the game is a Tigerish Determined manager. Shewy is known for his competitiveness he will do anything to claim victory, always within the rules. Last season having qualified for the Champions League final he basically threw his penultimate League Game by making loads of transfers which meant he scored zero points. This decision though backfired as he lost the Champions League final and failed to qualify for the Super Twenty Cup on point difference. This will only make Shewy analyse the game more to see where he can add that second Major trophy. Shewy will not be happy being known as the games bridesmaid, Overall league Runner-Up and FC Cup Runner-Up in 2009 and then that Champions League final last season.

PREMIER LEAGUE

STEVE WHITELY

Steve one of only 3 managers to have played every season in Fantasy Challenge. In the early days Steve was the biggest rival to Paul Dwinfour finishing runner-up in the overall league on two occasions. This feat made all the more remarkable that as a Leeds fan he would never pick Manchester United players, if it had not been for this radical transfer policy many believe Steve would have claimed a major trophy. Steve now lives in Australia so he has to stay up late or use the internet to get his Premier league stats together. This does not seem to be affecting his form though as for the first half of last season he was fighting for the Premier league title he fell away but managed to qualify for the Super Twenty Cup.

PREMIER LEAGUE

STUART POWELL

Four Seasons ago Stuart finished 4<sup>th</sup> in the Premier league a season after winning the Championship those two seasons had many tipping him to become the man to beat in the FC world. Marriage and Children though saw a change in fortunes for Stuart. Outside influences meant that FC no longer had his full focus and relegation was next on the agenda for the manager. Back in the Championship he was again tipped to come back in one instead he was fighting at the wrong end of the table. Last season though maybe with family life settling down Stuart was back claiming his second promotion from the Championship now he faces his second spell in the top flight. Many are asking the question is he ready for a longer stay this time.

Robin Wilson hit top and never looked back claiming promotion in Gameweek 34 the Championship followed in Gameweek 37. Chad Pereira who had chased Robin all season Claimed promotion in Gameweek 37 as did Oliver Shanks. Both these managers claiming a 5<sup>th</sup> successive promotion. With just one week to go Patrick Hutchinson and Nigel Finch sat in the last two places. Hutchinson beat Finch in Gameweek 37 to move ahead in the race. Only Stuart Powell could deny either of them promotion on that last weekend. Both Hutchinson and Finch lost, Powell won and leapfrogged both of them claiming promotion on the last day of the season. Hutchinson promoted thanks to that victory in Gameweek 37 over Finch. Nigel a former Champions League winner missed out by a point. At the other end of the Table Thomas Lusty was relegated for the second season in succession never looking like surviving. Graham Price who had a lucky survival last season joined Lusty in Gameweek 35 no reprieve this season. Lee Ferridge would be relegated a week later. Steve Martin looked to suffer a similar fate as Lusty having his relegation confirmed but drop outs would see him re-instated with a lucky survival. Cedric Ayres pulled out of the relegation places on the last day of the season relegating Jere Kerkanen. Ayres beat promotion chasing Nigel Finch to stay up whilst Jere lost his final game by a single point. In the summer it would all become academic as Jere received a lucky Survival.

CHAMPIONSHIP

ALEXA GLYNN

Alexa got into the Championship with a lucky promotion from League Two in the first season of the Super Twenty. She has been there ever since. Lex has challenged for promotion on a couple of occasions 2009 was the closest she has come to getting up into the top flight missing out by just 1 point. Luck though has also been in her favour with a lucky survival the following season finishing 17<sup>th</sup>. Lex finished mid table last season re-establishing herself in the Championship. Lex a solid performer at this level will be used to gauge against a lot of the new talent that has been promoted this season. There is no doubt that this is the strongest championship ever.

CHAMPIONSHIP

**BENNY GELLIE**

Many would say that finishing 13<sup>th</sup> in the Championship is not a great season. Benny, now back in Australia, will tell you it was his best ever season as he finished above former flat mate Steve Martin. Benny would also point out that he had to do his team from the other side of the world. Last season was the second in the Championship and saw improvement finishing two places higher and 9 points better. Benny will be looking to cement his standing in the game as a Championship manager and will obviously be hoping to maybe push for promotion. The possible key to this could be his rivalry with Steve Martin who has received a lucky survival so will be battling in the Championship again. Benny will have already marked Gameweeks 14 and 33 bragging rights once again on offer.

CHAMPIONSHIP

**CEDRIC AYRES**

Cedric Ayres was a manager catching the eye a few season ago promotion from the Championship with an FC Cup win the following season establishing Cedric as a force in Fantasy Challenge. Alongside that FC Cup victory Cedric had a solid first season in the Premier League finishing mid table 10<sup>th</sup>. Second season syndrome then hit as Cedric who was probably thinking of pushing for Super Twenty Cup qualification was relegated. Last season back in the Championship most would have expected him to be pushing to get back up in one season instead he was fighting to stay in the division. Cedric only got out of the relegation zone in the last week of the season. Cedric has not got past the 1<sup>st</sup> Round since winning the FC Cup so a good season is required to get re established in the FC World.

CHRIS TOMLIN

Chris Tomlin received a lucky promotion in 2007 from the Conference many kept an eye on Tomlin as that season the promoted managers were nicknamed the Conference Boys a new wave of stars were born it was thought. Chris had a steady season in League One then the following season promotion was secured. Next season will be his third in the Championship. The previous two seasons have been steady finishing 11<sup>th</sup> then 12<sup>th</sup> the same points total in both. Chris seems to be a steady manager a consistent manager one that makes the division a very tough one but he is not expected to be challenging for promotion but probably will not have any relegation worries either.

DAN WYATT

Whilst Dan did not have an auspicious start in the game only Surviving relegation with a lucky survival not setting any of the cup competitions alight either. Dan though it seems used the first season to study the game the Players you but maybe more importantly the managers who you face. In his second season the League Two title was claimed then last season another promotion was claimed from League One. Dan actually claimed promotion in Gameweek 36 sitting top of the table by the end of the campaign he was 5<sup>th</sup> but that all important promotion had been claimed. Dan's addition into this league is one of the reasons it will be the toughest Championships of all time.

## GLEN HOGWOOD

Glen Hogwood was being tipped for world domination after two seasons he had gained successive promotions and also added a major trophy by winning the FC Cup in his second season. As a relatively new manager Glen was thought to be part of a new generation and many tipped him to be promoted from the Championship straight away. However a poor start in the Championship saw him finish in an unspectacular 13<sup>th</sup>. Last season his second season in the Championship again he had a poor start. Even in Gameweek 25 Glen was looking over his shoulder at relegation then 4 straight wins got Glen within touching distance of the promotion places Glen though could not close the gap further. He will know that he needs to sort out his starts if he is to challenge for promotion.

JERE KERKKANEN

When Jere won League Two in his first season people were taking notice and Jere was being tipped to be a new star in the FC World. An average first season in League One meant he dropped from the radar with new managers making names for themselves. Jere though out of the spotlight secured his second promotion being runner-up in League One. In the Championship just one league from the top flight Jere was again being tipped for the top. A first season in the Championship though was not a great one as on the last day of the season Jere was relegated, Jere though received the good news that he has received a lucky survival many will disregard him from the promotion race this season. One thing to make people think though is although he was relegated last season he did make the Champions League Semi-Final was it this cup run that took his eye off the league.

**JOE HIGGINS**

Joe has a solid pedigree in the FC World becoming the League One champion in his first season. His first season in the Championship Joe was fighting relegation and just survived. A season later he was claiming the last promotion place. His first season in the Premier league was all about survival the cup though was a different story as Joe made his first ever major final unfortunately he lost the Champions League final. Making that final and two promotions to his name meant he was being recognised in the game but last season when many felt he might mount a Premier league challenge or qualify for the Super Twenty Cup he was relegated. Getting back in one season is not going to be easy.

## MARK IRONS

Mark Irons is known in the FC World as the manager that does not take the game too seriously. In fact he is well known for not starting the season well in order to seduce his main rival in the game Robin Wilson to increase their annual bet on who will finish higher in the Overall League. A few season back Mark let Robin get over 50 points ahead then sorted his team out and came storming back to take the Money from the bet. Robin is now back in the Premier League after winning the Championship and their bet last season. The Question is will Mark play for the whole season three finishes in the Championship of 7<sup>th</sup> show that Mark has the talent to gain promotion it just seems to depend on whether he wants to concentrate on the betting game with Robin or actually concentrate on getting out of the Championship.

**MICHAEL CARLETON**

If season 2011-2012 is half as good as last season Michael Carleton will not stop smiling. Becoming League One was great making the FC Cup Semi-Final was a great achievement but to put the Cherry on top of the cake Michael won the Champions League. Michael finished a lowly 14<sup>th</sup> in the Conference in his first season amazingly he received a lucky promotion due to the amount of drop outs he has not looked back since the following season he was promoted from League Two claiming the last promotion spot. No one thought would have predicted what Michael Achieved last season the question is whether Michael can produce again this season. Has he unlocked the key to success or wash it a flash in the pan.

CHAMPIONSHIP

MICHAEL LYNN

Years ago Paul Richardson used to approach Michael Lynn to ask if he would take part in Fantasy Challenge Michael always said no moaning that he hated people who after witnessing their side concede a goal say oh well at least he is my fantasy team so I got points for that. At some point he had a change of heart and joined the FC World, he has not looked back winning the Conference and making the Pyramid Cup Final in his first season. Promotion was then claimed from League Two last season a third successive promotion from League One was attained. Now all Michael asks Paul Richardson is has anyone gone from the Conference to the Premier league in successive seasons it has been done Michael is hoping to become the second manager to do it.

**NIGEL FINCH**

Nigel a fierce competitor Claimed promotion form League Two in his first season he jumped two divisions due to drop outs. In his second season he won the Champions League claiming a major trophy. That victory is the only season Nigel has got out of the group stage. He has no real track record in the FC Cup either. Now facing his 5<sup>th</sup> successive season in the Championship. Nigel has challenged for promotion in 3 of those seasons with last season being the closest he has come facing heartbreak in the last two weeks a defeat to his promotion rival Patrick Hutchinson in Gameweek 37 then defeat in the last gameweek meant he missed out by a point. Nigel is not just a fierce competitor he is very studious and is getting close rot finding the ingredients for the promotion campaign.

**CHAMPIONSHIP**

**PATRICK O'CONNOR**

Patrick is definitely going to be a manager to watch out for this season he is going to have a steely look in his eye. Pat whose biggest rival in the game is Oliver Shanks was rising through the leagues with his rival, with three consecutive promotions to his name. Then last season Pat finished a respectable 8<sup>th</sup> still in the running for promotion until gameweek 36 although he won other results went against him. For most managers this would have been a good first season but with Oliver gaining that 5<sup>th</sup> consecutive promotion for Pat the season was a disappointment. Next season is going to be all about getting into the top flight a resuming that rivalry with Oliver Shanks.

## ROARI FOX

Just one season in the top flight for Roari Fox finding himself back in what looks to be a very tough Championship. It took Roari three seasons to get out of the Championship last time he will be hoping for a quick return this time. Roari started out in League One received a lucky promotion then never really challenged in the Championship finishing outside the top ten for two seasons but then he stormed to a 3<sup>rd</sup> place catching most people unawares. If Roari is to re-establish himself as a force in the FC World he needs to be challenging for the promotion places next season. Roari will be hoping for better luck in the FC Cup next season he fell victim to the snow in the 3<sup>rd</sup> Round last season when most of the Premier League games were called off.

SIMON BAKER

Simon's relegation from the Premier league was a massive shock. In 2008 Simon lost the Premier League on Point Difference he finished 6<sup>th</sup> the following season many were impressed within the game to have not let that disappointment get to him and to finish so highly. Then in 2010 he won the Super Twenty Cup his first and currently only Major trophy. The pundits felt that this signified the re emergence of Baker and that he was going to do something big in the game. Relegation and in truth Simon never looked like staying up. A massive season for Simon he would be wrong to think that this is an easy division and that he will mount a promotion challenge Simon is going to have to find his best form if he is to get back at the first attempt.

Lammie an ever present in the Super Twenty League received a lucky promotion from League One in his first season he struggled in two seasons in the Championship and was relegated in his second season. In 2010 his first season back in League One he finished in a respectable 7<sup>th</sup> place but no one was really taking notice. Last season he was the shock name in the promotion race being promoted in Gameweek 37 and finishing as Runner-Up. Back in the Championship it will be interested to see what level Lammie is at, many will feel that last season was a flash in the pan but he was close the season before is Lammie a very experienced Super Twenty campaigner learning his trade and ready to make a name for himself.

## STEWART LUNN

Stewart Lunn an ever present in the Premier League a two time qualifier for the Super Twenty Cup, albeit one was lucky. Suffered relegation last season. He is another manager that has never faced life outside the top flight who is going to get a rude awakening in the Championship this league is strong. Stewart who now lives in Spain needs to be fully focused and makes sure he manages to get all the Premier League news he can out in Madrid. Stewart would have been described last season as part of the establishment always having been in the Premier league now without any silverware to his name he is a manager that has something to prove.

TIM WALTERS

Walters promoted from the Conference in 2007 Challenged for League One promotion in 2009 then made the headlines by making the Champions League final that season. The following season Tim put the disappointment of that final defeat behind him and mounted another promotion push this time just coming up short finishing 6<sup>th</sup> taking it to the last two weeks of the season. Looking like being known as a nearly man Tim finally gained that elusive promotion from League One 3<sup>rd</sup> place was gained. Is Tim ready for the spotlight again ready to mount a Championship Promotion push or put in another big cup run? With the new managers coming through now is definitely the time to get into the Premier League as it is only going to get tougher.

At the end of Gameweek 37 all five promotion places were decided with just two points separating the five no one knew where the Championship Title was going. At the end of the last gameweek three managers won two lost Michael Carleton took the title on point difference from Steve Lam and Tim Walters, Michael Lynn and Dan Wyatt lost and had to settle for promotion. At the other end of the table it was similar story with the bottom five being relegated early first to go was Peter Reel as early as Gameweek 32. Two Gameweeks later Carol Price and David Oldland the following week Medu Osman joined the doomed managers. Gameweek 36 saw the relegated managers decided. It not known if they knew that there would be drop outs but Andy McLaren the last manager to be confirmed as relegated stayed at the top of the relegation zone which in the summer meant he received a lucky survival. David Oldland who was the second manager to be confirmed as relegated battled on for the rest of the season and moved up the taboo by two vital places as he also received a lucky survival. No other manager did. League One was the one league with all the promotion and relegation issues resolved early although the fight for the title went to that final Gameweek.

LEAGUE ONE

ANDY COLLINS

Andy had one of the crazy first season which often happened in the inaugural season soft eh Super Twenty when he was relegated form League Two but in the summer due to dropouts actually ended up being promoted to League One. League One is where Andy has been since four seasons having his best season last time out. Andy was just a point off the promotion places with three weeks to go but two defeats in his last four cost him his chance of finally getting out of the League. Last season also signalled Andy's best ever run in the Champions league making the 3<sup>rd</sup> Round. Hopefully last season's achievements his best season will Give Andy the platform to mount another challenge this season.

LEAGUE ONE

ANDY McLAREN

A major trophy winner in 2007 Andy McLaren has not really gone on from that success. It was the Champions League Trophy that Andy won since then he has never got out of the Group Stage winning it in his first season in the game. That season he also gained a Lucky Promotion from the Conference although he was fighting for the promotion places finishing just outside in 6<sup>th</sup>. Two seasons in League One followed with Promotion coming in the second season. Finally this major trophy winner was on his way in the Championship but he never competed at that level; finishing bottom and being relegated. Last season he should have been relegated from League one but has received a Lucky Survival, you have to wonder if that first season will always be his best.

LEAGUE ONE

ANDY TAYLOR

It all started so well for Andy with successive promotions, First the Conference then League Two. He has however not found League One to be as easy. Two seasons in the divisions have seen one relegation battle and one mid table finish. That first season in League One Andy survived on Point difference it does not get any closer than that. Last season saw an improvement up 4 places in the table and scoring 8 more points which was a good finish as he started the season poorly being bottom of the table after Gameweek 8. A decent run of results lifted him to safety but he never really challenged for that third promotion that he craves. Improvement was made last season but he will need even more if he is to challenge this season.

LEAGUE ONE

AUBREY DAVIS

Aubrey another manager who benefitted from drop outs in the first season was promoted form League Two when he had finished 12th. Aub's as he is known in the game took full advantage in the following season by gaining promotion form League One. A first season in the Championship saw he once again challenge for promotion missing out by just one point when he had a far superior point difference. The future was looking bright but reality was to be different. Aub's crashed in his second season in the Championship finishing a lowly 18<sup>th</sup> never really competing relegation being confirmed after Gameweek 35. Last season was meant to be one of consolidation but Aub's found himself again at the wrong end of the table fighting relegation, surviving by 3 points.

## BILL HILL

One of the many rising stars of the FC World Bill enters his third season with back to back promotions behind him. Bill had a fantastic first season in the game in which he secured that first promotion from the Conference he had a top ten finish in the overall league which is no mean feat with the ever expanding league and also made the Pyramid Cup Semi-Final's. He probably would have been gaining more headlines were it not for the fact of other new managers even eclipsing this magnificent first season. Bill continued his good work last season gaining promotion from League Two finishing as Runner-Up he did not fare so well in other competitions but the Super Twenty leagues are where an FC manager is judged so far so good for Mr Hill.

LEAGUE ONE

DAVE OLDLAND

Dave enters his sixth season in the game without ever having caught fire. In his first season he received a lucky promotion to the Championship but was relegated immediately. Three more seasons in League One he has never challenged for promotion and last season was relegated although with dropout sin the summer he has received a lucky promotion. In three out of his four season at this level Dave has secured a mid table position. It has not been a great story in the cups either his best finish in the FC Cup are two Second Rounds both achieved in the last two seasons. He has never got out of the Champions League final and yet the banter that goes on in the Ops room with Rabobank over the game you get the feeling something is going to happen one season soon.

DEE PATEL

Dee is used to competing in a man's world she does it in her job and when she worked at Rabobank she did it on the Pool table to great effect showing her tenacity and competitive spirit by winning the Client Service pool competition. However it has not been quite the same story in the FC game. In her first season she challenged for promotion from League Two finishing 7<sup>th</sup> eventually receiving a lucky promotion. A season later she was relegated from League One however once again fate was on hand to intervene with a Lucky Survival. Last season saw a more respectable mid table finish 13<sup>th</sup>. Dee's cup pedigree is nonexistent never getting passed the Qualifying round in the FC Cup and never out of the Group Stage in either the Pyramid Cup or Champions league. Now no one doubts Dee's football knowledge she just needs to find that pool table fighting spirit.

LEAGUE ONE

DUNCAN THOMPSON

Duncan received one of those very Lucky Promotions in his first season which saw him go up two divisions that gigantic leap was definitely a step too far as he finished bottom of the Championship in his second season. He has been in League One ever since. His best finish being his first season in the league 9<sup>th</sup> two finishes of 14<sup>th</sup> in the last two seasons have not really had people sitting up and taking notice. That second season he only survived relegation by point difference last season was more comfortable being 7 points clear. One wonders if his close rivalry with Dave Oldland is to blame for these poor showings in the league as their battle seems to take place at the wrong end of the table but always keeps the banter going throughout the season as they remain close in the table. Duncan did have a good run in the FC Cup last season going out in the 4<sup>th</sup> Round hopefully this will give him the platform to build from.

LEAGUE ONE

GEORGE FERRIDGE

The young George was highlighted as a future star for the game when he gained promotion from the Conference in his first season. He has been in League One since then flirting with Promotion on a couple of occasions. George struggled in his first two seasons up but managed to stay in the division. Those lessons seem to have been learned as he has had two consecutive finishes of 8<sup>th</sup> place. Just 4 points away from promotion last season. A quarter-finalist in the Champions league back in 2009 further proof of George's ability. George is evidence of the good managers that can be found at this level he is competitive but has so far just fallen short of that second promotion. Many pundits feel that George is a talent just waiting to fulfil his potential.

## GRAHAM PRICE

Graham Price seems to be the enigma of the FC World. The FC Expert says that Graham is a Premier League manager and that he is under achieving so much so that he asked me in the summer to ask Graham why he does so many transfers each week. This is the only time I can remember the FC Expert asking me to actually a manager something. Graham's response was that he has been unlucky with injuries and suspensions. Graham won promotion from the Championship in his first season and had a great finish in his first season in the Premier league qualifying for the Super Twenty Cup. Since then though relegation has followed one lucky survival from the Championship and then finally relegation last season. The FC Expert said to me before writing this profile that although he has tipped him for relegation once again, it would not surprise him if he was to win the title.

LEAGUE ONE

HAKAN BEDIR

Four seasons in League One would make you think that Hakan is not really causing a stir in the game but a run to the FC Cup Semi-Final certainly caught the headlines. This run seemed to have inspired him and gave him confidence last season Hakan was in the running for the promotion places from the off he was in and around the promotion race right up until Gameweek 27 unfortunately from that point in the season he dropped off the pace. In the end not even achieving his best ever finish in the league although he did secure his best ever points total. Many might feel that four seasons at this level means Hakan is at his level but that cup run and start to last season's campaign once again shows the strength in depth in the FC World.

## KASKA PORCZYK

A star is born in just two seasons of the game Kaska has all the pundits enthusing about her. For me she still has the best quote in the entire history of the FC World. When Kaska joined up Paul Richardson thought that she had said she knew nothing about football and published this in an article the following day at work Kaska sought out Paul to put the record straight "Paul, I never said I knew nothing about football I said I knew nothing about Fantasy Football". Well no one is arguing after winning the overall league in her first season putting the Conference Title alongside it then last season gaining promotion from League Two Kaska is considered a new star of the FC World. Everyone is looking forward with interest to see how she fares in League One.

## LEE FERRIDGE

Lee father of George will once again be worried, as his relegation sees him in the same League as George. Lee who was promoted in his first two season, albeit his promotion form League Two was a lucky one, spent three season in the Championship never really challenging at the top. His best finish was 12<sup>th</sup> and like so many managers was relegated the following season. Facing a new challenge back in League One many pundits will feel that Lee is a manager of a higher level but one can't help but wonder if the rivalry with son George could affect Lee this season. George often starts well being right in the frame for promotion if Lee does not match this he may well feel the pressure in trying to keep up with his son. It is definitely going to be interesting to see how lee adjusts to the division and renewed rivalry.

LEAGUE ONE

LEE PEPPER

Lee Pepper has only ever competed in League One with a mixed bag of results. In his first two seasons he finished just below mid table but improvement was made in the second season. However his third season was a disaster being relegated after finishing in 18<sup>th</sup> position. The summer though brought a reprieve in the form of a Lucky Survival. That seemed to jolt Lee as last season he pushed hard for promotion although he could not get promote don the last day of the season Lee gained victory over one of the promoted managers to finish just one point adrift of the promotion places. If Lee can find the formula of last season he could once again be in the frame and might just finally get out of this division in the right direction.

LEAGUE ONE

MARTIN TREW

Martin has seen steady improvement season on season. Culminating with that promotion last season from League Two. In his first season he just avoided relegation then moved to a solid finish in 8<sup>th</sup> the following season. Then of course that promotion which was backed up by a top ten finish in the overall League and a Quarter-Final in the Champions League. Martin is already speaking to other managers in the game trying to glean from them who they think the unknown stars are going to be. Martin is sure to be tinkering with his team in the summer and certainly seems to be of the mindset that he will be competing for another promotion. Not yet making any big headline sin the game a second promotion would change that.

NICK GILCHRIST

Nick Gilchrist is one of those managers that always surprise me when it comes to writing these profiles for a new season. Nick for me has never really caught the headline sin the game and yet he has two promotions in three seasons. Nick is probably happy to be flying under the radar going about his work unnoticed. In his first season he was promoted from the Conference and in his second season he finished a creditable 7<sup>th</sup> in League Two although 10 points of promotion which is why nobody probably noticed him again. Last season though a 3<sup>rd</sup> place saw him promoted again alongside some of the managers that do gain the headlines. As suggested Nick is probably happy that other managers are having their prospects talked up whilst he just get on with the job of trying to gain another promotion.

LEAGUE ONE

RAYMOND TURP

Raymond burst onto the scene by wining the Conference in its first ever season. That league was thought to have many future stars of the game and none were thought to be brighter than Ray. He did not sign up the following season, the end of a promising FC Career. Ray though had failed to keep his information updated and left it too late to sign up. He was devastated when he found out that he would have to rejoin at Conference level. Back in the Conference it wasn't a great season finishing 16<sup>th</sup>. Was Ray a flash in the pan, the following season he chased promotion from the Conference hard but in a very tight division he finished a point adrift of promotion. His luck was about to change though as he received a lucky promotion. That promotion seemed to help Ray get his mojo back as he clinched the League Two title on the last week of the season.

LEAGUE ONE

RICHARD MUNROE

Richard Munroe is one of the many managers that headlines seem to pass by. His first two seasons in the game nothing special finishing 13<sup>th</sup> then 14<sup>th</sup> in League Two, then it seemed almost from nowhere a promotion campaign was mounted and Richard finished 4<sup>th</sup> improving his points tally by 20 no mean feat, As it had taken him three seasons to get out of League Two no one was really expecting anything in his first season League One but Richard had a steady first season finishing a respectable 9<sup>th</sup>. Although Richard failed once again to get out of the Group Stage in the Champions League he had a decent FC Cup run last season making the 4<sup>th</sup> round. Another manager not creating or causing headlines but obviously a solid performer whose presence is going to make League One a tough division again this season.

LEAGUE ONE

STEVE HALEY

Steve Haley is only one of Two Managers who have actually won two Super Twenty Leagues. Steve had the whole FC World talking about him when in 2009 he won the League Two Championship it was back to back titles having won the Conference the previous season. Everyone thought that a star had been born and was further evidence of the game getting stronger Steve surely was going to go through the league straight to the Premier. This was not to be the case though as Steve has stalled in League One. In fact Steve has seen other manager catch him and now been promoted before him. Whilst 9<sup>th</sup> seemed like a decent finish in his first season up he was 120 points adrift. Last season he finished 12<sup>th</sup> on less points than the previous season. Is he destined to be known for those two great seasons? If he is to challenge again he needs to find his Beetlejuice!!

LEAGUE ONE

THOMAS LUSTY

One of the most famous names in the history of Fantasy Challenge. Some might say for the wrong reasons, Lusty is known as 'the Great Escape' as in his first three seasons in the Premier League he survived on the last day relegating some quite poignant to himself and big names in the game. The fourth relegation campaign was just too much pressure as he finally succumbed and dropped down to the Championship. A bigger shock was on the horizon as Lusty was once again relegated this time not even making a fight of it finishing rock bottom 10 points adrift of the next manager and an amazing 22 points from safety. Has Tom's affair with relegation battles got the better of him it is certainly an FC Career that is heading in the wrong direction.

One of the tightest divisions ever going into the last gameweek only two managers were promoted with the title still to be decided some 6 managers were chasing the last 3 promotion places. Raymond Turp and Bill Hill were the promoted managers. On the last Gameweek Bill Hill lost whilst Raymond Turp won which meant he took the title. Victories in the last Gameweek for Nick Gilchrist, Kaska Porczyk & Martin Trew secured promotion for those managers. Victories were not enough for Sam Shew & David Wilson as they both missed out by a point. Rob Wills lost on that final Gameweek which meant he finished 8<sup>th</sup> 4 points adrift. It was a different story at the other end of the table as Callum Hogwood became the first manager to have his relegation confirmed after Gameweek 33. Darren Woolcott joined Callum, two weeks later. Kerry Blue then followed after Gameweek 37. Ellie Wyatt and Marc Lewis occupied the final two relegation places going into the last gameweek both needed a Victory and for Paul Buckland to lose to survive. Paul Buckland did not oblige by winning his last game. Although Ellie only managed a draw and Marc Lewis lost. Marc has decided to drop out meaning he will not gain his lucky survival but good news for Ellie and Kerry as drop outs will see them re-instated into League Two next season.

LEAGUE TWO

ANTHONY NICOLAIDES

Anthony enters his 4<sup>th</sup> season in the game with a mixed bag results in his career so far. In his first season Anthony claimed 5<sup>th</sup> spot and promotion form the Conference. The following season he was relegated but received a Lucky Survival. Last season he was at the wrong end of the table for most of the season finishing a lowly 14<sup>th</sup> only securing his survival after Gameweek 37 finishing 6 points clear of the drop. Anthony did have a decent FC Cup run last season making the 4<sup>th</sup> round his best performance so far. With the league being stronger this season Anthony will know that he needs to find that form that took him to that Conference promotion if is to fare better than last season.

LEAGUE TWO

BRAD SMITH

Brad a semi-Finalist in the Pyramid Cup in his first season managed to grab the headlines with this Cup run so far though it remains the highlight of his FC Career so far. Next season will represent his fourth season in League Two. 2010 represented Brad's best finish in League Two although he was 14 points away from promotion. Last season he finished 12<sup>th</sup> some 16 points adrift of the promotion places. So in his three seasons he has not pushed the promotion places he is always safe in mid table but needs to find those ingredients that took him to that Pyramid Cup Semi-Final in the League if he is to mount a challenge in a league that look stronger than ever before.

LEAGUE TWO

## CAROL PRICE

Carol received a lucky promotion in her first season form League Two and once again was on the end of good news the following season although this time it was a lucky survival keeping her in League One. The following season whilst 13<sup>th</sup> looked like a recovery season she only finished 1 point above the relegation zone. Last season the relegation battle was once again in full swing this time Carol failed to survive. Her relegation was confirmed after Gameweek 34 finishing some 9 points away for safety. So apart from that first season when a lucky Promotion was achieved when she finished 6<sup>th</sup> every season since Carl has been fighting a relegation battle. What remains to be seen is the level of Carol is she too good for League Two but not good enough for League One.

DAN CALDER

Dan who made everyone laugh when he revealed his nickname for the Pyramid Cup Final in 2010 as 'Howard the Duck' and allowed a photograph of a Duck to be used as his picture for the front cover of the Cup Final preview. Dan is one of the new stars rising through the game his first season he claimed the Pyramid Premier Title and just fell; short of the Pyramid double by losing that Pyramid Cup final. Last season Dan had yet another good season by gaining promotion from the Conference finishing 4<sup>th</sup>. Dan though could not repeat his cup success last season going out in the Weather stricken 3<sup>rd</sup> Round of the FC Cup and the 2<sup>nd</sup> round of the Champions League. A manager that many will be watching to see if he can claim a third successive promotion.

LEAGUE TWO

DAVE PERRETT

Dave received what can only be described as a very lucky promotion in his first season as he finished 10<sup>th</sup> in the Conference. Many would have thought that this promotion came too early and that Dave would struggle in League Two. Dave though has settled in fine at League Two level he has had two finishes of 11<sup>th</sup> and one of 10<sup>th</sup> almost the epitome of the mid table manager in this division. Many might mock these finishes but with new stars joining the game every season holding firm in this division that these new managers enters virtually every season is not bad going. All the pundits are saying that the league is even stronger this season so will Dave be able to stay safe or even shock a few people and mount a promotion push.

LEAGUE TWO

DAVID WILSON

Relegated in his first two seasons form the same league is quite an achievement by David of course in that first season he received a Lucky Survival. David was relegated in his third season form League Two again a Lucky Survival came to his rescue. David though seems to have put these poor days behind him as for the last two seasons he has challenged for promotion. Two seasons ago he finished 4<sup>th</sup> 4 points off promotion. Last season he had a chance all the way up to the last gameweek but he needed results to go his way although David gained a victory the other fixtures did not turn out so he missed out on promotion by one point. Now facing his fourth season in League Two can he make that final step to get out of the division?

LEAGUE TWO

ELLIE WYATT

The last two seasons have seen Ellie receive a lucky survival surely this coming season will not see the hat-trick. In Ellie's first season she achieved a respectable 10<sup>th</sup> 7 points from promotion and 8 points from relegation. A decent season but it seems to have gone wrong since this debut season. Last season Ellie took her relegation fight to last Gameweek but even if results had gone her way she did not do enough by only gaining a draw. So another lucky Survival for Ellie she takes on League Two for a fourth season with the promoted managers and the ones relegated the general feeling is that this league will be stronger Ellie is going to have to pull something out of the bag to not have another nervous summer waiting to see what her fate is.

## JOE HATCH

Another new manager making a big name for himself. Joe did not set the world alight in his first season finishing 8<sup>th</sup> 13 points off promotion but gained a lucky promotion. Joe accepted this good fortune with both hands. In his second season he claimed promotion from the Conference and made the FC Cup Final. His appearance in the FC Cup final bringing him to prominence in the game. Finishing in the top ten of the overall league and making the Quarter-Final of the Champions League Joe has now definitely been picked out by the pundits as a manager to watch in the future. Joe will be hoping to pick up where he left off last season trying to gain a third successive promotion next season.

LEAGUE TWO

KERYY BLUE

Kerry smiled at Paul Richardson when asked about joining the Fantasy Challenge world and said I like beating the boys as they always think that we girls know nothing about football. Kerry a season ticket holder at The New Den certainly backed up those words in her first season gaining promotion from the Conference. Last season though was a different story being relegated after Gameweek 37. The summer though has seen a reprieve for Kerry and she has been re-instated into League Two. Kerry took her eye of her team last season getting too excited by Millwall's own promotion push. This season whilst Kerry will be hoping the Lions can have another good season she needs to concentrate to try and make it a double celebration.

## MARCUS HOGWOOD

Marcus one of the youngest managers in the game had a great first season gaining promotion from the Conference. Last season whilst he finished in 11<sup>th</sup> this was a very good finish never being in danger of dropping out of the league. Last season Super Twenty campaign though does not tell the full story of Marcus's season as he had a decent run in the FC Cup losing in the 4<sup>th</sup> Round. It was though the managers that he beat to get into the 4<sup>th</sup> Round that has made several sit up and take notice. Marcus beat Thomas Lusty in the Qualifying round a former Premier league manager then he beat 'the Ledge' Paul Dwinfour the 3<sup>rd</sup> Round he beat Kaska, one of the new stars of the game, then in an almost derby game he knocked out Gary Davis after a replay, Gary a family friend. The run came to an end against another big name the FC World Oliver Shanks. These results and a promising first season in League Two

LEAGUE TWO

MARK ANGLISS

Mark Angliss another of the names on the pundits lips after gaining successive promotions in his first two seasons. Mark Promoted from the Pyramid Premier in his first season backed this up with another promotion from the Conference last season. Making the Quarter-Finals of the Champions League last season has also cemented his standing within the FC World. Whilst Mark has caught the eye of the pundits he is still in the shadow of Sandeep Chohan and Dan Calder Although Mark finished above Mark last season. This season could be a real test as now after these promotion he will be facing managers with greater experience it is up to Mark to show that he should be plying his trade at a higher level. If he can continue current form and gain another promotion the pundits will be marking him out as a future major trophy winner.

LEAGUE TWO

MEDU OSMAN

In four seasons in the Super Twenty League on only one occasion has Medu avoided relegation. In his first season he had one of those amazing pieces of luck that although he was relegated he received a Lucky Promotion. His first season in League One he was the first manager to be relegated in all leagues. Luck was once again on hand as Medu receive a Lucky Survival. The in 2010 Medu managed to finish 10<sup>th</sup> and it looked as though he had steadied his ship. Last season was to prove that this was not the case as he was relegated once again. By Medu's own admission he often starts the season with loads of enthusiasm but this thins as the season grows he has also been known to play his wildcard as early as the second week of the season, Maybe it is time to have a more methodical approach.

LEAGUE TWO

PAUL BUCKLAND

Paul received a lucky promotion in his first season from the Conference as season in which he challenged for promotion missing out by a point although he knew he could not get promoted as everyone went into the final week. That lucky promotion saw Paul participate in League Two last season. The first season was virtually a season long relegation battle. Paul certainly was fighting for survival for the second half of the season. Paul stayed out of the relegation zone and as the season entered the last Gameweek he was one point clear of relegation requiring a win to stay in the division. Paul faced a difficult last match as Rob Wills his opponent had an outside chance of promotion. Paul's nerve held firm and he secured another season in League Two.

LEAGUE TWO

PETER REEL

Peter has been involved at one end of the table every season of his FC Career so far. In his first season he finished 13<sup>th</sup> out of 14 in League Two but due to drop outs Peter received a lucky survival. A season later it was a different story Peter went into the last match on top of the table with promotion secured. Unfortunately he had a very tough fixture facing the manager in 6<sup>th</sup> place who needed a win to gain promotion. Peter lost that match and the title in the hardest of circumstances to take on point difference. 2010 was again a different story as Peter struggled in League One being relegated in the last gameweek again point difference would come into play. A lucky Survival saw him survive. Last season Peter never got started finishing rock bottom come 15 points from safety.

LEAGUE TWO

RICHARD CASEY

Richard has not had the most auspicious of careers in FC so far. Although last season showed glimpses that things are about to change. Richard's first season was a decent one finishing 9<sup>th</sup> in League Two receiving a lucky promotion his first season in League One was not great though Relegation in a lowly 18<sup>th</sup> was confirmed only to be reprieved in the Summer with a Lucky Survival. This survival did not last long though as a season later Richard finished in bottom spot being relegated after Gameweek 35 finishing some 15 points adrift of safety. Being in League Two though seemed to revive Richard as he mounted a promotion push still harbouring hopes up to gameweek 29 falling off the pace after this Gameweek. This could be attributed to his two cup runs. Richard made the Quarter-Finals of the FC Cup and the 3<sup>rd</sup> Round of the Champions League after being knocked out of these cups, in both he lost to Michael Carleton, he fell away in the league.

LEAGUE TWO

## ROB WILLS

Rob Will's was the butt of several jokes at Rabobank with his first two seasons in the game. Finishing 15<sup>th</sup> in the Conference he got a Lucky Promotion to League Two. In his second season He finished rock bottom in League Two but once again fate was to intervene gaining a Lucky Survival. Rob was obviously fed up of the office banter and turned things around last season chasing promotion and still being involved on the last day of the season just one point adrift. Rob though could not gain victory in his last match of the season and his chance of promotion had gone. Rob eventually missed out on promotion by 4 points whilst this will come as a disappointment to him he can take great heart out of the massive turnaround he had last season and hopefully can use this as a launch pad to be competitive once again next season.

LEAGUE TWO

**SAM SHEW**

Whilst Sam Shew might be one of the younger members the game he is one of the most recognised names. Sam first came to prominence in 2007 when he was promoted from the Conference with many highlighting him a star for the future but Sam dropped out of the league. He rejoined 3 seasons later. Back in the Conference once again Sam caught the eye as he finished as Runner-Up Sam also gained a top five finish in the overall league and made the Quarter-Finals in the Pyramid Cup. Last season he could not quite clinch promotion form League Two narrowly missing out by a point. He once again put together a good cup run making the Quarter-Finals of the FC Cup. Sam is definitely a manager the others are aware of and don't want to play. He is no doubt determined to face his father in the Premier League.

LEAGUE TWO

SANDEEP CHOHAN

In only two seasons Sandeep already has some pundits saying he is of legend status in the game. Many feel you have to be in the top league to gain this status. He is already equal 4<sup>th</sup> in the list of major trophy winners. In Sandeep's first season he won the FC Cup a week later he won the Pyramid Cup to become the first ever manager to win two cup competitions in one season. He added promotion from the Pyramid Premier and finished runner-up in the overall league. It was a breathtaking debut season one which many felt he would not be able to replicate. 12 months later Sandeep was once again Runner-up in the overall League and added the Conference title he could not replicate his cup success. Everyone waits with baited breath to see what he achieves in his third season.

LEAGUE TWO

SEBASTIAN LOGAN

Sebastian did not have the greatest starts in Fantasy Challenge finishing a lowly 14<sup>th</sup> in the Pyramid Premier with drop outs though a Lucky Promotion was secured. Sebastian obviously liked the feeling of promotion and decided that in his second season he was going to achieve it on merit. In Gameweek 30. Seb lost to top of the league Sandeep Chohan by two points and was 6 points adrift of promotion lying in 11<sup>th</sup> place. Seb won his next 5 matches that run took him into the promotion places by a point. One defeat was then followed by two victories one on the last day of the season to secure promotion by 2 points. That run in must have Seb brimming with confidence and he will hope to start the new season in the same vain.

LEAGUE TWO

STEFAN RANCE

Stefan received a lucky promotion in his first season after finishing 8<sup>th</sup> in the Conference just one point off of promotion. In what was very tight division? Many felt that although it was a lucky promotion it was deserved and that he would challenge once again for a second promotion. Stefan looked to be prove those pundits right as he sat top of the league after gameweek 22 then a disastrous run of result derailed Stefan's season 7 consecutive defeats saw Stefan drop form top of the table to 12<sup>th</sup> and 9 points adrift of the promotion race. Stefan could not turn this round and actually had another bad run with 4 consecutive defeats the points gained early on saw him safe of relegation but a worrying second half of the season will need to be addressed for the forthcoming season.

Sandeep Chohan stormed to the Conference title winning the league by a massive 14 point margin, he was promoted in Gameweek 31 and became champion in Gameweek 34. Joe Hatch was promoted the same week that Sandeep claimed the title Joe was 8 points clear of third. Mark Angliss grabbed his promotion in Gameweek 36. As we entered the last Gameweek 4 managers had a chance of gaining promotion Dan Calder and Sebastian Logan were the managers in the driving seat needing a win to secure their promotion. Both Calder and Logan won to take the final two places. Jamie Reilly won his last match but missed out on promotion by 2 points. At the other end of the table it was a much closer affair with no one relegated before gameweek 37. After Gameweek 36 though a 3 point gap had appeared. The following week four managers were confirmed as relegated Richard Tudge on the bottom, Carl Bradbury, Rebecca Nicolaides and Tony Harrison. Chloe Scaplehorn went into the last day in the relegation zone but on the same points as Rio McLister and just two behind Gary Davis. Chloe though had a very difficult last day fixture against league runner-up Joe Hatch and she could not get the desired victory confirming her fate. Chloe though has been reprieved with a Lucky Survival alongside Rebecca Nicolaides.

## ALISTAIR SHIELDS

Alistair received a lucky promotion in his first season after finishing 11<sup>th</sup> well off of the promotion places. Like many managers who gain a lucky promotion Alistair struggled in the division above. With just 8 weeks to go Alistair found himself at the bottom of the table, the division was tight Alistair was just 4 points from safety. Three straight wins moved Alistair out of the relegation zone. With 3 matches to go Alistair was out of the relegation zone but on the same points as the 16<sup>th</sup> placed manager another streak of three consecutive wins saw Alistair draw clear of the relegation battle and secure his Conference place for next season. Those six victories in his last 8 games could set Alistair up for next season.

CALLUM HOGWOOD

Callum another young manager in the game received a lucky survival in his first season after finishing bottom of League Two. The following season Callum made a better foist of the division struggling in the first half against relegation but pulling clear in the second half. Last Season Callum's younger brother joined him in League Two. For Callum the season turned into a nightmare as his brother gained a mid table finish whilst Callum struggled for the whole season being relegated in gameweek 33 and eventually finishing bottom of the table some 16 points from safety. So the revival needs to start next season for Callum as the bragging rights in the Hogwood household lie with Marcus. 2011 -2012 though is a new season and Callum needs to find his form of 2010 things could well be different then.

## CHARLIE THRUSSELL

A great debut season to announce his arrival on the Fantasy World Charlie scooped a major trophy by winning the FC Cup. As if that success was not enough Charlie also gained promotion from the Pyramid Premier finishing Runner-Up spot. Whatever happens in the future That trophy is in the cabinet, that trophy means currently that after only one season in the game Charlie is one of only 22 managers who have won a major trophy. There is well in excess of over a 100 players that have at some time competed in the game. Whether Charlie will feel the pressure of his second season as expectation mounts with the pundits tipping him for bigger things and another promotion campaign expected.

## CHLOE SCAPLEHORN

In three seasons so far in the game Chloe is yet to hit the heights in fact quite the opposite. In the Pyramid Cup and Champions League Chloe has failed to get out of the Group Stage and has never been past the 1<sup>st</sup> Round in the FC cup. Chloe has never been out of the Conference starting in it in season 2009 when it was the botch division just as well as otherwise Chloe would have been relegated the following season Chloe was relegated but received a lucky Survival. Last season Chloe was relegated losing out in the last Gameweek. Once again though luck was on Chloe side as she received another Lucky Survival. This record would normally see the FC Expert predict relegation but the FC Expert has seen something Chloe and is predicting things to change.

## DANIEL SILCOCK

Daniel enters his second season in Fantasy Challenge full of optimism and confidence after securing promotion from the Pyramid Premier. That promotion was not claimed until the last week of the season and amazingly came when Daniel had actually lost. Daniel had a Cup final last match of the season facing Sina Issabiglou who also needed a win to be promoted Daniel lost a close match 45-43 but the disappointment was short lived though as news of the other results came in and promotion had been secured. Daniel also had a decent crack at the cups getting out of his group in the Pyramid Cup and made the 3<sup>rd</sup> Round of the FC Cup. That promotion a nice end to a debut season.

DARREN WOOLCOTT

Darren finds himself in the Conference after finally being relegated from League Two. Darren has not had the best of records in the Super Twenty League. In his debut season he received a lucky promotion after finishing in 11<sup>th</sup> in the Conference some way short of the promotion places. That though did not tell the full story of Darren's debut season as he made the Semi-Final of the Pyramid Cup. Things have not progressed for Darren since that first season, in his first season in League Two he was relegated but Survived due to drop outs then last season Darren was relegated in Gameweek 36 in a tight division but Darren was in the relegation zone for most of the season. No impression has been made on the Cup since that run to the Pyramid Cup Semi-Final either.

DEAN WRIGHT

In Deans Debut season he finished a lowly 16<sup>th</sup> in the Pyramid Premier second from bottom although some 14 points clear of bottom. Knocked out of the FC Cup in the 1<sup>st</sup> Round and did not manage to get out of the Group Stage in the Pyramid Cup. There was nothing to give a clue to Dean's second season. Dean put in a great second season Gaining promotion in Gameweek 33 then two weeks later Dean was crowned Pyramid Premier Champion. Dean had been knocked out early in the FC Cup 2<sup>nd</sup> round but he was fighting on two other fronts falling just short of the Prize Money in the overall league finishing 6<sup>th</sup> just 3 points short of 5<sup>th</sup>. In the Pyramid Cup he made the Semi-Final this season has Dean earmarked as a future start and will have people monitoring his progress this season.

CONFERENCE

GARY DAVIS

Gary Davis enters his third season in Fantasy Challenge with a report card that probably says must do better. In his first season he finished bottom of the Conference gaining one of those coveted Lucky Survival's. Gary started last season well and was well involved in the promotion race but things went horribly wrong at the halfway stage in Gameweek 19 he lost it would be 7 weeks before he would post a victory. That run then saw him fighting at the wrong end of the table and he did not finish the season well with four defeats fortunately he had enough points on the board to survive by two points. Gary had his best run in the FC Cup but this also ended poorly for him as he lost to young Marcus Hogwood, Gary a friend of Marcus's father Glen. It is believed it is the first thing Marcus mentions every time he sees Gary maybe that pain will see Gary maintain his early season form through next year's campaign.

CONFERENCE

IAN GREDLEY

Ian had a great debut season fighting on all fronts gaining promotion from the Pyramid Premier being his major achievement. That season saw Ian finish in the top four of the Overall League make the FC Cup Quarter-Finals and the Pyramid Cup Semi-Finals. A star was born in fact it was felt a new wave of manager was upon the game as several of the new stars were breaking through. Last season was not as successful for Ian though the cups passed him by going out in the 1<sup>st</sup> round of the FC Cup and did not manage to get out of his Group in the Champions League. Going into the last 8 weeks of the season Ian was well placed fighting for promotion once again but for the first time in his FC Career he experienced things going wrong 6 defeats in the last 8 weeks destroyed his promotion chances 5 of those defeats being consecutive. Ian will need to brush himself down and forget the plaudits of that first season and knuckle down.

He made no inroads into the Cup competition Qualifying round in the FC Cup 2<sup>nd</sup> round of the Pyramid Cup. His second season it was a similar story in the Cup Competitions he could not get out of his group in the Champions League he managed to make the 2<sup>nd</sup> Round of the FC Cup. In the Conference though it was a different story as Jamie battled top gain promotion he took his efforts to the penultimate gamweek before he could no longer be promoted. Whilst Jon Wedge has not caught the headline she had two very good seasons in Fantasy Challenge. His first season he was Runner-Up in the Pyramid Premier securing promotion to the Conference. Jon had a good cup run in the Pyramid Cup as well making the Quarter-Finals. Last Season Jon experienced another poor FC Cup campaign going out in the 1<sup>st</sup> Round he is also struggled in the Champions League not getting out of his group. In the Conference it was a different story a season long campaign to gain promotion Jon dropped out of the promotion places in Gameweek 37 just 1 point off of promotion with a match to go. Jon could not claim victory in that last match but it would have been academic anyway as results did not go his way. Jon is sure to be in there fighting again next season.

Joseph another of the younger members of the Fantasy Challenge World who is making a decent fist of it the adults. Joseph finished a respectable 9<sup>th</sup> in the Pyramid Premier received a lucky promotion many felt that this might be a too big a step up for the young manager. Joseph though attained a position of 10<sup>th</sup> Mid table respectability. This position which would have shocked many in the game was made all the sweeter as he saw his sister relegated and could take home the bragging rights in the Nicolaides household. Joseph though is going to have to be on his best form again as Rebecca received a lucky survival and is sure to want to gain revenge Joseph will remember she did finish above him in the Pyramid Premier.

KELVIN WALKER

Kelvin shocked the FC World when he dropped out of the game in 2010. Kelvin had been performing at the top level of the game he had an FC Cup Quarter-Final and Semi-Final appearances to his name, A Quarter-Finalist in the Champions League and had qualified for the Super Twenty Cup making the Semi-Finals. Kelvin joined the game in 2006 the season before the Super Twenty Leagues were formed he qualified for the top division and in the first season of the Premier League he was Runner-UP a Season later though he was relegated. He almost regained his Premier League spot missing out on promotion by just a point. Then that dramatic decision to leave the game. Kelvin returned last season in an expanding game Kelvin had to rejoin in the Pyramid Premier he finished 8<sup>th</sup> 5 points of promotion. This is definitely proof that the game has more strength in depth than ever before. It is a long road back fro Kelvin.

LUKE SOUTHWELL

Luke Southwell will be very pleased with his first season's efforts. Although he did not make an impression in the Cup s being knocked out in eth 2nd Round of the Pyramid Cup and the 1<sup>st</sup> Round of the FC Cup. He gained promotion form the Pyramid Premier securing promotion in Gameweek 37. Whilst other managers caught the headlines because of promotion campaigns and cup runs Luke achieved the main priority for any manager promotion and but has not got the added pressure of being written about as one of the new stars of the game. He will be entering the new season under the radar and will be hoping to repeat the success of his debut season.

CONFERENCE

MARK MANWARING

Mark enters his third season with one lucky promotion under his belt he has the unusual distinction of having finished 12<sup>th</sup> in his two previous seasons. His first season was in the Pyramid Premier where he received that lucky promotion. Mark made the most of that lucky promotion by finishing 12<sup>th</sup> in the Conference not a bad finish for his first season. A solid first season in the Conference begs the question on whether Mark can build on that in this next campaign. With new stars being talked about all the time it is thought that the leagues are getting stronger each season Mark is probably one of the managers expected to make way for the new wave.

Last season Rebecca never really got started last season fighting relegation for the whole season she just could not survive going down being 6 points adrift at the end of the season. RHYS HATHERALL

Rhys felt that he made no impression in his first go at Fantasy Challenge as he finished rock bottom of League Two some 20 points adrift of the next manager. Two seasons later Rhys was ready to try again. There was no doubt that the two seasons away he had studied the game and had come back a better manager. Rhys finished a more than respectable 7<sup>th</sup> just 5 points adrift of promotion. This perseverance paid off as with drop outs Rhys gained a Lucky Promotion to the Conference. Whilst Rhys did not set the cups alight he did better than in his previous Fantasy Challenge life. Rhys got out of the group stage in the Pyramid Cup and made the 2<sup>nd</sup> Round of the FC Cup. Rhys also had a more than respectable finish in the overall league coming in the top twenty finishing 17<sup>th</sup>.

Rio enters his third season in the game looking at another campaign in the Conference. Rio as yet has not troubled the promotion places in the Conference in his first season he stayed up after Gameweek 36 he finished just one place above the relegation zone one point clear. Last season it was a similar story last season with 3 matches to go Rio was firmly entrenched in the relegation zone one place off bottom. Rio though put together three victories to secure his Conference status. Rio finished 3 points clear of relegation and two places above the drop zone. Rio is yet to make an impression on the Cups as well not getting out of the Group Stage of the Pyramid Cup or the Champions League the 1<sup>st</sup> Round is his best achievement in the FC Cup.

SIMON WESTLEY

Simon gained a Lucky Promotion from the Pyramid Premier finishing 10<sup>th</sup> some 15 points off the promotion places. Simon was expected to struggle in the Conference but finished a respectable 11<sup>th</sup> 10 points from promotion and 9 points clear of the relegation zone. Simon managed to get to the 3<sup>rd</sup> Round of the FC Cup in his first season and last season he got out of his group in the Pyramid Cup. So with two solid seasons in the Super Twenty behind him will it be another similar campaign or will he manage to push for promotion. Simon can fall back on the knowledge that he did better in the Conference than the Pyramid Premier so improvement is being made.

## STUART SHEPHERD

Stuart Shepherd battled hard in his first season for promotion from Pyramid Premier the chase was over in Gamweek 37 when all eth promotion places were decided. Stuart finished just one place of the promotion places and 7 points adrift. Good news followed in the summer as drop outs saw Stuart gain a lucky promotion. He managed to get through the group stage of the Pyramid Cup falling out of the 2<sup>nd</sup> Round. Last season Stuart was once again fighting at the right end of the table although the promotion places were again out of reach. Stuart was always in the top half but could not bridge the gap to the promotion places. He finished in a respectable 8<sup>th</sup> place although way off in the points total.

Dean Wright and Charlie Thrussell were out on their own with Wright confirming promotion after Gameweek 34 a week later he had claimed the title. Thrussell that same week confirming his promotion. Luke Southwell joined them after Gameweek 37. Daniel Silcock & Stuart Rutherford occupied the last two places with only Sina Issabiglou able to gain promotion. The fixture list served up a great last day match between Issabiglou and Silcock destined to meet in a match in which whoever won would be promoted. Issabiglou beat Silcock to gain promotion and move from 6<sup>th</sup> to 4<sup>th</sup> in the last Gameweek. Stuart Rutherford though could not take advantage of this fixture as he lost his last game. This meant that although Daniel Silcock had lost that last day play off he managed to stay in the promotion places. Jonathan Pughe became the first manager relegated in gameweek 35 Michael Coles joined him a week later. All the relegation issues were resolved at the end of gameweek 37 Roland Wellington, Martin Eyre and Kevin Johnson filling those final places. All of the managers would receive a Lucky Survival due to drop outs but only Martin Eyre and Roland Wellington have taken up their places in next season Pyramid Premier campaign.

### AARON NOEL

Aaron had a very good start to his FC Career and certainly announced his arrival on the FC World. Aaron finished just outside the top ten in the overall league finally finishing 13<sup>th</sup>. It was not a great start in the Cup falling at the 1<sup>st</sup> Round stage in the FC Cup and the Pyramid Cup Group Stage. In the Pyramid Premier Aaron secured a promotion in 3<sup>rd</sup> Place. This promotion was secured after Gameweek 36 Aaron though was in contention in the promotion places for the entire season. Aaron now faces fresh challenges a division above and for the first time a full 38 game season campaign also that promotion has the many FC pundits and other managers keeping an eye on his progress in the game.

## ANDRAES THEMISTOCLEOUS

Andraes was noticed straight away as possibly having the longest name in the game not sure in the history of the game but that is another story. So with the spotlight already Andraes for no other reason than his name he started to make people sit up take notice with his results. Andraes secured promotion after gameweek 34. As we moved into the last week of the season Andraes and James Conway were on the same points Andraes had the better point difference. Holding his nerve to win his last match Andraes took the title on point difference. A run to the Semi-Finals of the Pyramid Cup cemented Andraes first season reputation and is being one of the many new managers to watch this coming season.

## BART WULLINGS

Bart is in his second spell within the Fantasy Challenge. In his first spell he had just been relegated from the Championship and decided to drop out as he was to embark on a year of travelling. Bart though was back last season but had to join three divisions below where he had left the game. Bart had the expectation as a returning manager one from a higher league great interest was taken into how he feared in the lower league just how strong they are. Bart finished a lowly 13<sup>th</sup> not in danger of the drop but not challenging the top for many this is proof that the game is getting stronger each season. Although the Pyramid Premier campaign did not go to plan Bart showed his quality by finishing in the top ten of the overall league finishing 8<sup>th</sup>. It is a long road back to the Championship Bart will be hoping it starts this season.

**CHRIS JAMES**

Chris had a difficult first season in Fantasy Challenge. He did not make any impression in the Cup going out at the Group Stage in the Pyramid Cup and not getting past the 1<sup>st</sup> Round of the FC Cup. In the overall league he just finished in the top hundred finishing 98<sup>th</sup> place. In the Super Twenty Leagues it was a similar story in Pyramid One League. Pyramid One was a very difficult division with only two places not being involved in relegation or relegation not leaving much room for manoeuvre. Showing just how tight the division was after Gameweek 35 he was 3 points from promotion outside of the relegation zone by a single point. Two weeks later Chris was relegated the season turning upside down almost overnight. The summer though brought good news for Chris as not only was he re-instead he ended up gaining a lucky Promotion due to drop outs can Chris take advantage of this good fate.

Daryn McCleave always looking to show his knowledge on all things football will be happy with his first season in the Fantasy Challenge gaining promotion from Pyramid Two. Daryn has received the good news that due to drop outs he has leapfrogged Pyramid One and starts the new season in the Pyramid Premier. Daryn was the last manager to secure his promotion claiming 5<sup>th</sup> place after gameweek 36. The Cups were not so successful going out in the 1<sup>st</sup> round of the FC Cup and the Group Stage in the Pyramid Cup. The Scunthorpe fan will be hoping that the Iron can get back into the Championship and that he can mount a promotion push for the Conference.

A solid debut season for George in the Pyramid Premier he fell short of promotion finishing in 9<sup>th</sup> place but only 5 points from promotion. George during the season did occupy a spot in the promotion places he could not manage to hold it up for the whole season. George though was never in trouble of relegation. This first season will certainly give him hope that he can go that one step further this coming season. George did not have as much success in the cup going out at the Group Stage of the Pyramid Cup and the 1<sup>st</sup> Round of the FC Cup. A top 40 place in the overall league was also secured. The debut season has definitely laid the foundation and George will be looking forward to the new campaign.

Graeme goes into his second season in Fantasy Challenge after a decent debut season but one in which he did not catch the headlines. The Cups were uninspiring as he was knocked out in the Group Stage of the Pyramid Cup and the 1<sup>st</sup> Round was where his FC Cup campaign finished. 11<sup>th</sup> place was attained in the Pyramid Premier but in truth it could have been a lot better with 6 matches to go Graeme was 3 points of the promotion places but 4 defeats from those matches saw him drop to 11<sup>th</sup> place. Graeme lost his last 3 fixtures. This end might make Graeme concerned about the forthcoming campaign but he is sure to point to his top twenty finish in the overall league to suggest that good times lie ahead.

**PYRAMID PREMIER**

**JAMES CONWAY**

James Conway has announced himself on the FC World with winning a major trophy in his first season. James picked up the Pyramid Cup in the final Gamweek of the season. For James he could not quite complete the double as although he won his last league he lost out on the title to Andraes Themistocleous on point's difference. A debut season of two trophies would have been fantastic but James will be happy with the Pyramid Cup which is of course a major trophy where as the Pyramid Two titles is a secondary trophy. To add to those achievements James also claimed a top five finish in the Overall League finishing 4<sup>th</sup> so he won prize money in three competitions. The only negative in a great debut season was the FC Cup in which James went out in the 1<sup>st</sup> round.

**PYRAMID PREMIER**

**JAMES MILVERTON**

James another manager going into his second season will feel he has a good foundation to build on from his debut season. James finished 12<sup>th</sup> in the Pyramid Premier. He was well clear of relegation but not in touch of the Promotion places. James will know though that the last seasons Pyramid Premier topped the league averages, this will give him heart that not being in trouble is a good finish in a tough league. James had a decent crack at the cup making the 3<sup>rd</sup> Round of the FC Cup and is got to the Quarter-Final of the Pyramid Cup. The Quarter-Final defeat will have been painful as James was knocked out by just one point over the two legs. This though certainly gives James a good platform for his second season.

**JANO LASKOR**

Jano finally joined the Fantasy Challenge league last season after avoiding it but the pressure in the Operations room in Rabobank was too much and it was time for Jano to stand up to the challenge. He will be very pleased with his first season and is enjoying the banter as he claimed promotion from Pyramid One. Promotion was claimed in Gameweek 36. Jano lost his last match which saw him drop from the Runner-Up spot into 5<sup>th</sup>. This will not bother Jano though as the main goal of gaining promotion was secured. The cups were not as successful as he could not get out of his group in the Pyramid Cup and the FC Cup dream finished in the 2<sup>nd</sup> Round.

**JATIN JOSHI**

Jatin first season was one spent at the wrong end of the table in a season long relegation battle. Jatin occupying one of the relegation places for several weeks. Jatin saved his best run of result for the very end of the season as he won his last three fixtures to pull clear of the relegation zone and stay up by a 5 point margin. Those three victories will Jatin hope that he can move up the table next season. A defeat in the 1<sup>st</sup> Round of the FC Cup and not getting out of his group in the Pyramid Cup meant that the end to the Pyramid Premier campaign was the highlight of Jatin's debut season. Hopefully the experience gained last season will help him to have a better campaign next time out.

**JONATHAN STRACK**

Jonathan Strack in his first season finished on top of the entire field in the overall league becoming Champion and claiming a major trophy in his first season. In Gameweek 37 Jonathan won the Pyramid One Championship. A two trophy haul is impressive stuff for a debut season and all the more impressive to claim a major trophy not many managers in the game have one of those to their name of course that can never be taken away. So Jonathan enters the new season as one of the favourites again for silverware will Jonathan be able to live up to the high expectations. It will be interesting to see how Jonathan fares in his second season can he cement a great debut season.

Martin has a lot of work to do after his debut season it was not an auspicious start. He was relegated from the Pyramid Premier, relegation was confirmed after gameweek 37, it was a tough first season as Martin only finished two Gameweeks outside of the relegation places. His best run of games came with 3 wins. He finished outside of the top hundred in the overall league. The cups told a similar story knocked out in the group Stage of the pyramid Cup and the FC Cup campaign finished in the 1<sup>st</sup> round. The summer did have a silver lining for Martin though as he received a Lucky Survival due to drop outs. Martin may need to re think his strategy from last season or will he hold to his beliefs and prove many wrong.

PYRAMID PREMIER

MATT HANSELL

Matt Hansell had a great Pyramid Cup run and probably thought that the Cup luck was in his favour as Matt won his semi-final in the tightest of circumstances knocking out Andraes Themistocleous on away points, and just be a single away point at that. Surely it was fated that his name was on the trophy unfortunately it was not to be. A major final in a debut season though is a fantastic achievement. In a very difficult Pyramid One league Matt avoided relegation by 2 points, 7 off promotion. The summer did bring good news though as he received a Lucky Promotion. So Matt will be looking to add to that Pyramid Cup final and hopefully claim an actual promotion.

**PYRAMID PREMIER**

**RICHARD WATKINS**

Richard claimed his promotion as early as Gameweek 34 from Pyramid Two to ensure that his debut season would always go down a successful one. Preparing for life in Pyramid One in the summer Richard then received the news that his promotion would see him rise two divisions straight into the Pyramid Premier due to drop outs so he added a lucky Promotion to his promotion. Richard also made a decent go of the cups getting out of his group in the Pyramid Cup but falling out in the 2<sup>nd</sup> round. He managed to get to the 3<sup>rd</sup> of the FC Cup falling foul of the weather stricken round he could only gain 3 points in the weekend when most Premier league fixtures were called off. That might have left him wondering what might have been but success in the Pyramid Two promotion more than made up for it.

PYRAMID PREMIER

ROB LYNN

I have been told that this is quite common in the game but Rob Lynn is the only one that has actually admitted to it. Rob Lynn is actually a management team but surely in the most unique way the management team are both called Rob Lynn as it is a father & Son management team. It is unclear but whilst it was felt that Lynn senior was making all the decisions last season he is handing over the decision making reins to Lynn junior this season. With this knowledge you can see that there could be trouble ahead although it worked last season. That debut season brought promotion from Pyramid One finishing runner-Up they also made the Quarter-Final of the Pyramid Cup last season. It will be interesting if the change in the decision making will prove to be as successful.

ROB T

Rob T, The T standing for Tinkler for those of you who have wondered. Had an interesting first season in the Fantasy Challenge. Rob got off to a dreadful start to the season he lost his opening five fixtures. Rob though sorted his team out and by Gameweek 31 was just 1 point for promotion unfortunately Rob his next four fixtures did not go to plan with two defeats and two draws. That run meant that promotion whilst mathematically possible was out of reach. Rob finished up in 10<sup>th</sup> which when you take into account that start was decent result especially when you see he avoided relegation by 16 points. Rob will be looking forward to the forthcoming season confident that he can't have such a bad start this time around.

## ROLAND WELLINGTON

Roland will take heart from his FC Cup run he in which he went through 3 rounds by beating managers all form league above him he finally lost to young Sam Shew in the weather effected i3<sup>rd</sup> Round. That cup run was definitely the highlight of Roland's season. He was relegated after Gamweek 37 and finished second from bottom 9 points adrift from safety. Roland finished in a low 115<sup>th</sup> in the overall league and failed to get out of the Group Stage of the Pyramid Cup. That cup run was not the only silver lining of his season as Roland ended up receiving a lucky survival so will have another crack at the Pyramid Premier next season. He will need to find his cup form week in week out for the league.

**STUART MANNERING**

Stuart will be looking forward to the new season after gaining promotion from Pyramid One and also putting together a good run in the Pyramid Cup losing at the Quarter-Final stage. Stuart only confirmed his promotion on the last match of the season. Securing that promotion winning his last three matches. Putting the Cup run alongside promotion is the sort of thing that gets you noticed by the pundits of the FC World. Stuart's first season caught the eye and now he will face the spotlight in his second season will he be able to handle the added expectation that his second season will bring. He will also be hoping that he can go further in the Pyramid Cup.

ADRIAN TAYLOR

Adrian Taylor might be new to Fantasy Challenge but has three seasons under his belt in the Premier League Game. Looking at last season's points total Adrian would have finished 14<sup>th</sup> in the overall league which is a more than a respectable finish. That sort of points total will have many in the game worried already before Adrian has even had to make a transfer. The previous two seasons were not so good a 30<sup>th</sup> and a 48<sup>th</sup> although both top 50 positions but obviously last season was his best Adrian will be hoping to replicate that in his first season.

DAN VARROW

Dan will come into the game knowing he has played the Premier league game for the last fur season and will be hoping that this experience will stand him in good stead. After reading this preview he might not be so confident. In the last two seasons Dan would have finished outside the top hundred places in the overall league. In his other two seasons he would be just inside the top Hundred but not breaking the top fifty. Will Dan hold his nerve and believe in how he goes about the game or after reading this will he make changes to his team, believing he will need more points in the Fantasy Challenge.

### DAVID BRODSKY

At the time of going to press David had not got his team into the Premier League website so currently we do not know if he has ever played the Premier League Game before. What we do know about David is that he is a friend of George Ferridge so we are assuming that David is yet another one of our younger members. David will be able to glean knowledge from George and George's father Lee. Hopefully this will help David in his debut season in Pyramid One.

### DRONA NANDOE

Drona comes into the Fantasy Challenge with one season of Premier league Fantasy experience under his belt. His points total last season would have seen him finish in 67<sup>th</sup> place which would have been a decent debut season. Of course how that would translate into the Super Twenty Leagues is always difficult to tell but Drona will be looking at that favourably and be hoping to make an impact in his first season.

**PYRAMID ONE**

**JAMES BASTOW**

James goes into his second season mainly wondering what Pyramid One will hold for him knowing that a lot of the division will be made up of new managers. James did not have the greatest of debut season finishing 9<sup>th</sup> in Pyramid Two last season 16 points off promotion. If he had not been in the bottom division he would have been involved in a relegation battle. The Cups did not hold any escape from the League either going out early in both the Pyramid Cup and the FC Cup. It will be interesting because James came into the game with high hopes and was tipped to do well last season but it did not happen for him can he turn it around this season.

Joseph will take on his rookie season with one season of the Premier League game under his belt. He would have finished 72<sup>nd</sup> last season in the overall league which is a respectable position. Being inside the top hundred will give Joseph some hope but he will know he is also some distance of the top performers in the game. Joseph will feel though being put in at Pyramid One level he will be able to compete and it should be a good league for him to learn his FC trade.

KRIS NOBLE

Kris may well be looking at the new season with trepidation after seeing that his points total in last season Premier League would have seen him come a lowly 124<sup>th</sup> position in the overall league. Kris would have finished 82<sup>nd</sup> in 2010 and will take heart from that, which would have been a top hundred finish. So Kris faces his first season in Fantasy Challenge well versed in how the Premier league game works having played the last two season but will feel he will have to do better than he did last season.

## LEE CHAMPION

Lee goes into his second season with not the best debut season behind him. Lee should have been relegated but has received a lucky survival which sees him take his place in League One again. Lee will be happy to see a full league of 20 managers though as last season table of just 12 made it very tight league. Lee was relegated in Gameweek 36 after fighting most of the season to survive. Lee can take heart that he was never cut adrift and always had hope of survival. The cups did not manage to offer any distraction form the league as Lee lost ion the Qualifying Round din the FC Cup and could not get out of his Group in the Pyramid Cup. A new season a fresh start for Lee.

Marcos is still talking about his defeat in the 2<sup>nd</sup> Round of the Pyramid Cup. There was mix up on the dates on the website and Marcos had set his team up for the wrong week. He remains convinced that he would have gone through and won the competition. His form in the other competitions did not really backup his argument. He received a lucky survival in Pyramid One after being relegated last season. Next season Marcos will be looking to backup his argument one top for him is to keep going all season and not stopping when things don't go your way. Also he needs to look at his disastrous run of defeats between gameweek 12 and Gameweek 27 11 consecutive losses.

## MARK TERRY

Mark enters his debut season with three season of experience in the Premier League Fantasy Game. Looking at his points totals last season would have seen him finish 131<sup>st</sup> not raising any eyebrows. If you look at his total in 2010 it is a different story he would have finished just outside of the top fifty finishing 54<sup>th</sup>. The season before he would have been 95<sup>th</sup>. So a bit of a mixed bag but Mark will know that he will need to reproduce the scores and form of 2010 if he is to be a contender in the Fantasy Challenge.

Mikko is the cousin of Jere Kerckanen, currently Mikko has not signed up to the Premier League so we do not know if he has played it before and what experience he has. We would expect that if he is Jere Cousin he would have some exposure to the game. Jere has done pretty well although he is back in Finland. We are not sure if Mikko is based in Finland or England we are sure he will be leaning on his Cousin for some guidance this season which should help him through the season.

MUSTAFA BOZKUS

It is going to be a very interesting introduction into the Fantasy Challenge for Mustafa as although he has played in the Premier league game his last effort was 3 seasons ago. Muz as he is known also has the added pressure of a work colleague Stephen Firminger in the same league they sit opposite each other at work. Looking at those two previous seasons that Muz has played the premier league he would have finished in the overall league 76<sup>th</sup> and 60<sup>th</sup> never breaking the top fifty will be a worry although he would have sat pretty close to the middle of the table.

PHILIP EVES

Phil Eves has no experience of the Premier League. He is one of the many managers that have signed up for the league through Dan Wyatt at UBS. This will certainly make it an interesting season for Phil as he will face several derbies in Pyramid Two. We though at FC have no idea what experience Phil has. Just because he has not played the Premier League game he could have experience of other fantasy games. Currently Phil remains an unknown quantity.

### RILWAN DAWODU

Rilwan seems right up for the challenge and is definitely looking forward to the new season. After reading this Preview I am sure he will be even more buoyed. He has played the Premier league game for the last four seasons so he has that experience. If you look at where he would have finished last season a very impressive 15<sup>th</sup> in the overall league. He would also have attained a 28<sup>th</sup> place and a 51<sup>st</sup> he worst showing would have been 69<sup>th</sup>. This all looks very promising for Rilwan only time will tell how he copes with actually playing an opponent week in week out.

## RUSSELL FOOT

Russell did not have the most impressive of debut seasons. If he had not been in the bottom division he would have occupied the last relegation place although it has to be remembered it was a league of just 12 which made it difficult. Russell finished 13 points away from the promotion places. He managed to get through to the 2<sup>nd</sup> Round of the FC Cup before he was knocked out although losing to Oliver Shanks was no disgrace. He failed to get out of his group in the Pyramid Cup. The summer did bring some good news though as he received a lucky promotion so Russell will apply his trade in a higher division this season. Can Russell learn from his first season and rise to the challenge only the coming weeks will tell.

SEAN CONNEELY

Sean another new manager who has experience of the Premier League Fantasy Game. If you look at how he would have fared last season it does not make great reading finishing 148<sup>th</sup> but the two previous seasons will give Sean a real lift. Two finishes inside the top fifty and higher in 2010 he would have attained a very good 22<sup>nd</sup> the season before 37<sup>th</sup>. So Sean knows he needs to find the form of the two seasons if he is to make an impression in the Fantasy Challenge.

PYRAMID ONE

STEPHEN FIRMINGER

Stephen comes into the Fantasy Challenge as one of the most experienced of the new managers. He has played in the Premier League game for the last five seasons so he has a good understanding of how the game works. Stephen will be slightly worried though when he sees that when his points totals were put into the overall league of the last two season he would have finished outside the top hundred which is very disappointing. If you look at his first two seasons though he would have finished 21<sup>st</sup> and 43<sup>rd</sup> so two top fifty finishes will make people take notice. Of course it is his recent form that has to be taken into account more though. Stephen has the other added interest of Mustafa Bozkus in the same league these guys look across a desk at each other Monday to Friday.

**TOM McCARTHY**

Tom McCarthy who dropped out last season is back. He has had to join the game some 3 divisions below where he left it. Tom has two seasons in League Two to his name both times he finished min mid table in 12<sup>th</sup> not really troubling the promotion places and staying above the relegation zone. Whilst those two seasons were unspectacular you only have to look at his first season in the game and see what he did in the cup to see that Tom has something to offer. Tom made the Quarter-Final of the FC Cup and the Quarter-Finals of the Champions league knocking out Adam Pemberton in that Champions League run. It will be interesting to see how well Tom slots back into the game.

**PYRAMID ONE**

**WENDY PARKER**

Wendy received a lucky promotion last season so will be playing in a higher division. It is difficult to gain any clues as to how she will perform as she did not really get close enough to promotion from Pyramid Two but she was never in danger and did not have to look over her shoulder. She could not get out of the Group Stage of the Pyramid Cup she managed to make the 2<sup>nd</sup> Round of the FC Cup. For Wendy her second season looks to be interesting a difficult as normally you can gauge how the game is run and who are your main rivals for success but the change in managers means it is almost a fresh start another first season of course Wendy does have the experience of the first season and will hope to progress next season.

### YVONNE FREW

Yvonne take son the Fantasy Challenge league in the difficult situation of never having played the Premier league game as well. Many will see this as a disadvantage and it will probably affect Yvonne in her season. Yvonne though does have experience of Fantasy Football having been a runner-up in the Telegraph, Not the online game, game that has been used in a league at Rabobank Yvonne has a good track record in that league having been runner-up and has won the league as well. Yvonne is definitely going to add to the strength of the overall league she just might need a season to bed in before she shows her full potential.

Andreas Themistocleous won the closest of close league title by taking the championship from James Conway on point difference. James was actually the first manager to claim promotion after Gamweek 33. Andreas and Richard Watkins joined James a week later. Ian Moore claimed his promotion in Gamweek 35 the last position was filled by Daryn McCleave the following week.

With no relegation it is difficult to talk about the bottom of the table and that apathy was also shared by the manager as the bottom three all decided to drop out. In fact Pyramid Two had the highest dropout rate of all the leagues with 6 managers dropping out.

That means for the new season it is a completely new looking Pyramid Two as none of the managers from last season who have stayed in the league will be participating at this level they have all been promoted.

Alistair Thorne will take his place in Fantasy Challenge with four seasons of Premier League experience behind him. Looking at his points totals and placing them in the FC Overall league the last two seasons have not been so spectacular as he would have finished 131<sup>st</sup> last season and 97<sup>th</sup> before that. Alistair's first two seasons though were much better 44<sup>th</sup> in 2009 and an impressive 25<sup>th</sup> in 2008. Ali will be hoping that he can find that sort of form in his first season in FC.

ANDY CREHAN

With Two seasons experience of the Premier league game Andy would have been hoping that this would stand him in good stead as he looks to take on his debut season. After looking at his points totals and comparing them against the overall League the pundits are already picking Andy out as a future star of the game. Last season Andy would have finished a fantastic 10<sup>th</sup> in the overall league but the season before he would have been even higher with a 4<sup>th</sup> place this would have won him prize money. So Andy will be looking to the forthcoming season with an element of confidence.

PYRAMID TWO

## BARRY EDWARDS

Berry brings two seasons of experience from the Premier league with him as he enters his first season in Fantasy Challenge. Barry who will have heard All about the game from his colleagues at Rabobank will be hoping to make an immediate impact just as two of his colleagues did last season, Aaron Noel and Jano Laskor gaining promotion in their first season. Berry though might be a little more apprehensive after seeing where his totals from the last two seasons would have seen him in the Overall FC League. Last season a respectable but not spectacular 61<sup>st</sup> would have been attained but tin 2010 he would have been outside the top 100. Berry will feel a repeat of last season's total will put him in the frame.

## BEN CLARKSON

Ben has got experience of the Premier league game but it was two seasons ago. Ben may also be a little worried as he looks where he would have finished in the FC overall league in s010 he would have finished 117<sup>th</sup> outside the top hundred. This may be of a slight concern to him although he may well feel that he can learn from that experience. Manager FC Managers though will tell it is not always about your overall score but the consistency over the gameweeks in the Super Twenty Leagues.

### DANIEL JOPP

It is very difficult to Daniel Jopp's profile as he has no experience of the Premier league Game and of course this new season will represent his debut in FC. Daniel was recommended by James Dwinfour and you wonder if the Premier league manager will give some friendly advice to help Daniel through his first season. From what we can ascertain Daniel is a Crystal Palace fan judging by his email address this could well point to the fact that he will have more knowledge of the Championship than the Premier league. Daniel is an unknown manager entering into the unknown.

### DARREN CULLEN

Darren Cullen is another manager that joined at the very death in fact the fixtures had been produced but because it meant that we hit the 160 maximum the door was opened for Darren. We have no idea if Darren has played the Premier league before or what Fantasy Football experience he has. Darren found out about the game from another new manager so we are also unsure of who in the game he knows to tap up for advice.

GARY DODDS

Gary comes into the game with two season experience form the Premier League Fantasy game. If you put his point's totals into the FC Overall league last season he would have finished a solid 58<sup>th</sup> just outside the top fifty but a very respectable finish. In 2010 he would have been down in 73<sup>rd</sup>. These two seasons though show improvement and if Gary can improve ion that total again this season he could well be in the shake up for promotion for Pyramid Two.

PYRAMID TWO

JAMES WALSH

James the nephew of premier League manager Jim Burrows will obviously be hoping to make a name for himself in the game and showing Jim that he is competitive. James has a couple of seasons experience in the Premier League but looking at last season's showing he would not have made a major impact on the FC World he would have finished 140<sup>th</sup> in the overall league. His first season in the Premier League he would have had a much better showing so he will know he needs to find his form of 2010 to be competitive. James is also a Blackburn fan regularly attending Ewood so he will need to have one eye on the opposition to scout those potential signings.

**JEAN-PIERRE CLEGG**

The return of one of the stars in the FC World. Jean Pierre Clegg dropped out last season feeling he just did not have the time to commit to the game to do himself justice. Changes in JP's personal life meant that it was time to leave the game. JP now lives in the Czech republic and has a baby son. JP is not predicting anything special for his return but for all the new managers in this league they will be playing against a former Premier league manager an Overall League Winner, FC Cup Semi-Finalist and two times Semi-Finalist of the Super Twenty Cup. Will JP make a winning return or is he just dipping in his toe to see if he is ready to make his comeback. Only time will tell but it certainly livens up Pyramid Two.

JOEL CAPRANI

Joel comes into the FC World with two season experience of the Premier League Game. Joel has had his scores added to the FC Overall league from the last two seasons to see how he would have fared and it does not look that great. Last season Joel would have finished 122<sup>nd</sup> and 94<sup>th</sup> the previous season. Joel will need to improve on these scores if he is to make an impression in the FC game. Joel will have the extra incentive as another new manager is obviously a relation Nev Caprani with both of them in the same league I am sure Joel want to come out on top of this family affair.

### MARIS CARS

Maris joins the FC world with all the pundits taking notice before he has played a game. He has four seasons experience in the Premier League Game on closer examination of those scores he achieved Maris looks like he could make a major impact on the FC World. Maris would have finished 3<sup>rd</sup> in the FC overall league last season and two season before that he would have claimed 6<sup>th</sup>. So potentially two top ten finishes certainly all his new rivals sitting up and taking notice. As always we shall see if Maris can produce the good under the intense pressure that is the Super Twenty Leagues.

### MARTIN BERRY

Martin joined the league at the 11<sup>th</sup> hour and when we went to press with this preview he had not managed to get his team into the League so currently we do not know what experience he has. Martin though works at UBS and there has been a big influx from there this season Martin heard about the league from Dan Wyatt. So he has experience at hand to ask and will also probably face several derbies in Pyramid Two.

MICK LEAHY

Mick Leahy comes into the FC World with two seasons' experience of the Premier league Fantasy Game. However when his scores were added to the FC Overall league to see how he would have fared he would have finished outside the top fifty on both occasions. Mick will be looking at this and thinking that is a little unfair as would have been 53<sup>rd</sup> two seasons ago and 65<sup>th</sup> last season. Mick may well feel that he will be competitive at this level with those scores. It is difficult to tell in a league which is full of new managers.

## NEV CAPRANI

Neville will come into the league as one of the most experienced in the Premier league Game with five seasons behind him. His scores like all the new managers have been added to the FC Overall leagues of those seasons to see how he would have fared. There is an added interest for Neville as he is related to Joel Caprani so he will be involved in some Family derbies this season as they have both be drawn out into the same league.

## RASH DADDY (RASHID KHALIL)

Rash has one season's experience of the Premier League game. His score last season would have seen him outside the top 100 in the FC Overall League finishing 137<sup>th</sup>. So Rash knows he needs to improve on that score if he is to make an impression on the game in the coming season. Being in a league with new managers could well help. Rash will feel he can improve on last season's attempt and be competitive.

### RICHARD EAGAN

Unfortunately as we go to press we have no information on Richard Eagan. He has no Premier league experience which will put him at a disadvantage as most of the new managers have played in the Premier league before. Richard knows both Rob and Andy Gurney two successful premier league managers, this will probably mean that both will give him a helping hand in his debut season. With that knowledge at his disposal Richard could be a threat this season.

### STEPHEN McGOVERN

Stephen McGovern could face a difficult first season in the FC World he has no experience of the Premier league game but has admitted he has never played Fantasy Football before. You would say this puts him at a disadvantage but we are not aware of what football knowledge he does have. Stephen heard about the game from Joe Hatch who is a relatively new manager himself but he gained promotion and made the Pyramid Cup final so maybe Stephen will be able to gain some help and advice from Joe Hatch.

PYRAMID TWO

## TIM ELLIOTT

Tim Elliot is another manager that brings bags of experience of the Premier League Game with him to the table in his debut season. Tim has played the Premier League for the last four seasons. When Tim's scores were added to the FC Overall League it made interesting reading and was a mixed bag he would have gained two top fifty place in his four season one being a top twenty he has always made the top hundred. Unfortunately for Tim his best performance would have been four seasons ago. Tim though will feel he has performed consistently over those four seasons and that this experience will stand him in good stead for the forthcoming season.

### TOM PAUC

Cousin of FC Founder Paul Richardson Tom Pauc is back. After four seasons out of the game Tom is ready to take on the FC World again. Paucy certainly did not set the game alight in his first spell. Relegated from League Two out in the Qualifying Rd of the FC Cup and did not manage to get out of the Group Stage in the Champions League. Pauc joins at the lowest level but says he is ready for the challenge. Tom knows he will come under loads of scrutiny from his cousin and will be looking to prove Paul wrong who thinks he will struggle. Tom though is confident of doing better than first time around thinking he is older and wiser with more knowledge on the game before. One lesson he has to learn from that first experience is that he will have to keep an eye on his team every week.

PYRAMID TWO

## TONY PARMENTER

Tony has three seasons of experience in the Premier League Game. He started out in 2008 but did not play in 2009 but has participated in the last two seasons. His first season Tony would have finished 84<sup>th</sup> in the FC Overall League a top hundred finish but not spectacular. 2010 though he would have finished 35<sup>th</sup> a top fifty and that would point to be able to do something in the FC Game. Last season was a different story though as he would have finished 109<sup>th</sup>. Tony obviously has the potential and will need to unlock it as he did in 2010 a season like should see him challenging for promotion.

PREVIEW

There were several things that I wanted to include but I just simply ran out of time. There is one thing that I would like to share with you all though which is the accounts for Fantasy Challenge. Year upon year I get asked by several of you if I take money out of the game, many of feel that I should. Well I do although if worked out on an hourly rate not a great sum. I am happy with the current setup of the game with the current rates of prize money. Decisions will have to be made in the future as to what I do with expanding that game as I feel that 160 players in one game is enough it will now take a new manager some 7 Seasons to get to the Premier league. The prize structure is such that they have the same opportunities as a Premier league manager, with the exception of the Super Twenty Cup, but I feel the aim has to be to get into the Premier League and that 7 season is quite an undertaking to get there. Anyway here is a breakdown of Fantasy Challenge's accounts ensuring transparency between me and you the managers that take part:-

	IN	OUT	Balance
Entance Fees	£3,200		£3,200
Paypal Deductions		£4.60	£3,195.40p
Web Fees (12 Months)		£145	£3,050.40p
Prize Money		£2,304	£746.40p
